Instruction for use:

This glove is intended to be used where mechanical risks apply.

Warranty:

This product is warranted against manufacturing defects. Because applications vary, it is the user's responsibility to identify the right product for each application.

Electrical danger:

These products can pass on electrical currents, risk is higher when the product is wet !

Storage:

Store dry and at temperatures over 5° Celcius. Do not stack higher than 5 cartons on 1 pallet

Washing, drying and ironing:

No bleach or acid should be used, just standard washing detergents. The characteristics of the leather will change after 1 or 2 washings, hardening of the leather is typical after washing. Mechanical drying and ironing is possible but not advised

Warning:

These gloves should not be used when there is a risk of entanglement by moving parts of machines.

Materials used:

Grain bison leather for the innerhand and split cow leather for the back of the hand.

Caution: Weldas gloves and clothing have been tested and certified at TÜV Rheinland LGA Products GmbH, Germany (EU no. 0197).
