Self-adjusting protective eyewear.

Feel the difference.

3M Personal Safety
3M™ SecureFit™ Series Protective Eyewear

Protection,
comfort and fit.

3M™ SecureFit™ SF200 Series Protective Eyewear.

Featuring 3M Pressure Diffusion Temple Technology, 3M SecureFit SF200 Series Protective Eyewear provides noticeably higher levels of personal comfort and security of fit and weighing no less than 18g.

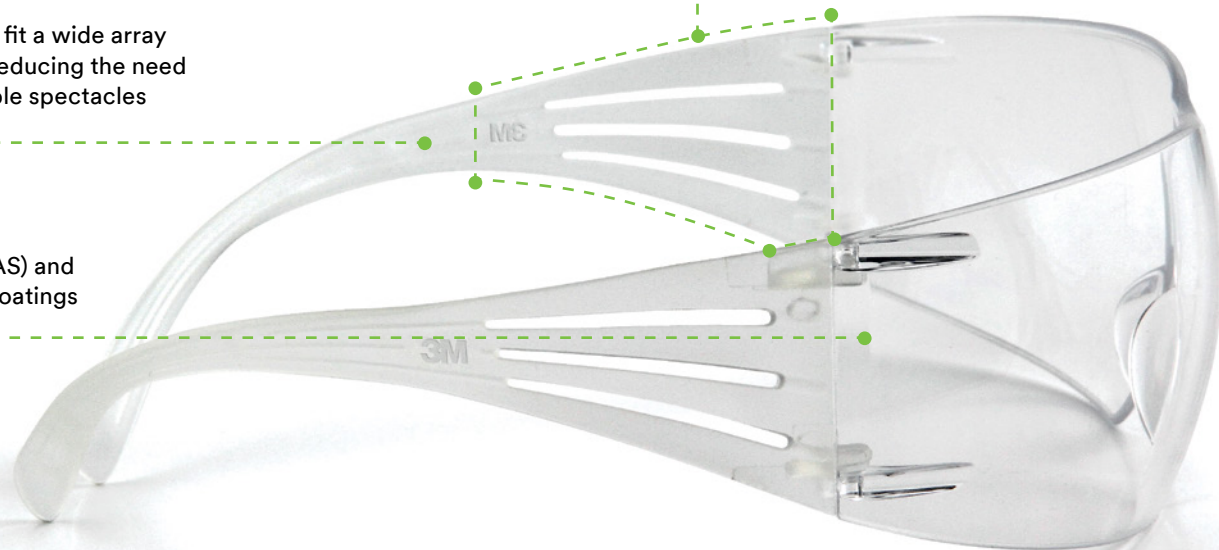

The innovative technology allows the spectacle temples to naturally adjust to individual head shapes and sizes without increasing pressure on the face.

Self-adjusts to fit a wide array of head sizes reducing the need to stock multiple spectacles

Anti-scratch (AS) and anti-fog (AF) coatings

Helps reduce eyewear/frame slippage during workplace head movements

Available in three polycarbonate lens tints: clear, grey or yellow.

Enhanced frame
comfort and style.

3M™ SecureFit™ SF400 Series Protective Eyewear.

As part of the SecureFit family of protective eyewear, SF400 features 3M Pressure Diffusion Temple Technology which provides superior levels of comfort and security of fit. In addition, the SF400 series includes a number of design features which further increase comfort and allow for a more personalised fit. Weighing just 19g, this is one of the lightest models of protective eyewear available.

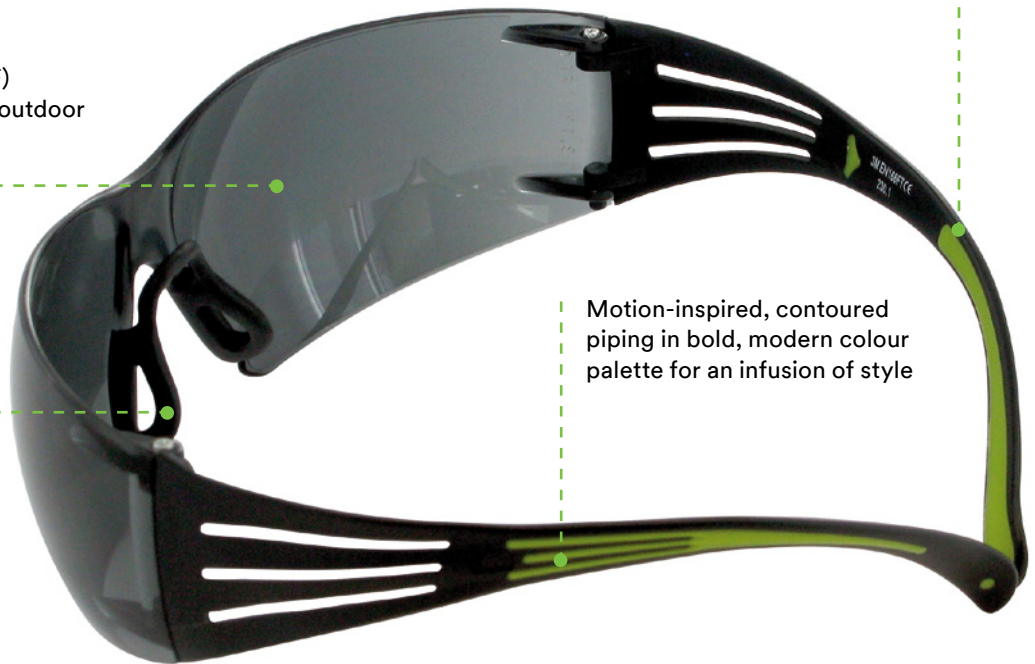

Dual-injected padded temple touchpoints for added comfort over the ears

Anti-scratch (AS) and anti-fog (AF) coatings. (Blue mirror and indoor/outdoor have anti-scratch coating only)

Soft, adjustable nosepads for even greater personalisation of fit

Motion-inspired, contoured piping in bold, modern colour palette for an infusion of style

Available in five polycarbonate lens tints: clear, grey, yellow, blue mirror or indoor/outdoor.
